

8595/1-PS1-S-S05-001 Art. No. 286572

- Simple handling using hot swap technology
- Versatile application possibilities thanks to modular structure
- Most extreme operating conditions in hazardous areas
- Reliable data and signal connections or power supplies
- Simple connection and disconnection thanks to one-handed operation

### MY R. STAHL 8595B

R. STAHL's Series 8595/1 explosion-protected miniCON plug connectors with up to eight poles keep you safely connected. The high-quality plastic or stainless steel plug connectors have impressed many customers with their reliability and versatility in application. Their hot swap disconnecting capacity means that intrinsically safe signal supplies and power supplies up to 500 V/16 A can be connected and disconnected reliably and safely without the need for a hot work permit or other hot work authorisation. The miniCON connectors designed for conductor cross-sections of 0.25 mm<sup>2</sup> to 2.5 mm<sup>2</sup> are available for directly connecting electrical lines or for device installation in the device plug and flange socket types of construction. The new plug connectors for hazardous areas in Zones 1 and 21 stand out from the competition thanks to their modular structure and logically arranged components, which enable quick, easy mounting. Our patented single-handed operation means that matching plug connectors, which can be defined by the installer using internal coding for up to three applications, can be connected in no time.

## Technical Data

### Technical Drawings – Subject to Alterations

### Dimensional Drawings (All Dimensions in mm [inches]) – Subject to Alterations

8595/1 plug  
X = depending on the cable gland used

### Accessories

#### Coupling, reverse

Enclosure material: Stainless steel 1.4404  
Contact type: Pin contact  
Connection cross-section: 0.5 mm<sup>2</sup>  
Number of poles: 7 P + PE/8 P  
Connection type: Crimping

**Art. No.**

286608

#### Crimping tool

For all versions with crimp connection of 0.14 to 6 mm<sup>2</sup>

**Art. No.**

295689

#### Contact mounts/positioners for rotated industrial contacts

The selection of the contact mount is based on the crimp contacts to be processed.

- Exact positioning of the crimp contact during the crimping process
- Reliable, reproducible crimping result
- Adapted for miniCON contacts
