

TEF4901000 Art. No. 170553

- Backlit text and graphics with dimming control
- Audible and visual alarms
- Main and spare lanterns in same buttons
- Function keys which automatically turns on and off outputs
- Custom made graphics and tex

MY R. STAHL T4900B

The operator panels for TEF 4900 Commander are very flexible in sizes and configurations. The panels are custom built and allow for use of text in several languages as well as graphics, such as small frames, etc. With a dimmable backlight these are easy to read in daylight as well as at night. Several panels may be connected to the same network, more typical with non-critical applications. Main and spare lanterns are handled in the same button, which simplifies and enhances safety. Automatic change over to spare lanterns with full alert tracing. The user may select to turn on the main lantern or the spare lantern, depending on the time the button is pressed. Special function buttons may be set up to automatically turn on and off lanterns with one single button, such as sailing lanterns on and anchor lanterns off. Alerts are provided with flashing LED's as well as a buzzer for audible alarms.

Applications:

Complete control and monitoring of several types of critical lights on vessels:

Navigation lights

Signal lights

Suez lights

ROV lights

Towing lights

Etc.

Technical Data

Electrical Data

DC supply voltage	24 V
Power consumption	7.2 W
Number of RS-485 interfaces	2

Diagnostics

Communication	RS-485
---------------	--------

Display

Backlight	Dimmable LED
-----------	--------------

Mechanical Data

Degree of protection (IP)	IP22
Enclosure material	Aluminium
Number of buttons	21
Size	1
Mounting cut-out width	180 mm
Mounting cut-out height	205 mm

TEF4901000 Art. No. 170553

Mechanical Data

Weight	1.3 kg
Weight	2.87 lb
