

- DIN rail mounting.
- 4 individual potential free outputs, 1 C/O contacts.
- 8 galvanic isolated digital inputs, 24VDC
- Built-in snubber network which allows termination of a wide range of communication cable, 100-250 Ohm characteristic impedance. End resistors shall not be used.

MY R. STAHL T4900G

4 relay outputs designed for connection of digital actuators, such as electromagnetic valves, contactors and visual indicators, or output signals to an external control system. 8 digital inputs designed for connection of switches, input from external system etc.

Technical Data

Electrical Data

DC rated operational voltage	18 ... 32 V
DC supply voltage	24 V
Number of RS-485 interfaces	2
Note on supply voltage	0-240 V AC/DC

Auxiliary Power

Auxiliary pwr nom. voltage DC	24 V
-------------------------------	------

Output

Max. output current	2 A
Behaviour of the output note	No fuses in module

Diagnostics

Communication	RS-485
---------------	--------

Mechanical Data

Degree of protection (IP)	IP20
Number of buttons	0
Weight	800 g
Weight	1.76 lb

Commander utility relay output module

8 digital inputs 4 relay outputs

TEF4900935 Art. No. 332703
