## Isolating repeater

### Ex i field circuit ISpac

9165/16-11-11s Art. No. 201270

- Compact one- and two-channel Ex i output isolating repeater
- Variants with wire-breakage and short-circuit monitoring system, which can be disconnected and features a signalling contact
- Can be used up to SIL 2 (IEC/EN 61508)

MY R. STAHL 9165A

9165 series Ex i isolating repeaters can be used for the intrinsically safe operation of control valves, I/P transducers or indicators. They transmit superimposed HART communication signals in both directions. The input, output and auxiliary power are galvanically separated from one another. The two channels in the two-channel variants are galvanically separated from one another.
